Developer Tools: Git, Docker, Visual Studio, Dev C++, Firebase, Figma, Adobe XD, Jira, Trello, Neovim.

EXPERIENCE

Hcode Consultoria e Tecnologia

Full-Stack Developer and Instructor

Jan 2022 – Present

- I have been involved in real projects from client interaction and **UI/UX** design to product delivery. Some examples are SPClick and RJClick which can be downloaded on app stores.
- I have been developing internal systems using **React**, **Next.js**, **Mantine UI** and **Axios** on the front-end, as well as **Node.js**, **NestJS**, **Prisma**, **TypeORM** and **MySQL** on the back-end.

Technical Support

Jun 2020 – Jun 2022

- Assisted students in the various taught technologies, clearing doubts, and helping them solve their errors.
- Some of the technologies were **Typescript**, **PHP**, **MySQL**, **NestJS**, **Vue**, **Bootstrap**, **jQuery** and **Node.js**.
- I learned to deal with the customer, solve problems and research to find solutions.

Fiap Treinamentos

Instructor

Jan 2024 – Present

- Currently teaching front-end development to over 60 students, notably from **Corporate University of Banco do Nordeste** and others.
- Live online courses via Zoom and MS Teams. Technologies include **React**, **Next.js**, and **React Native** using **Typescript** starting from scratch.
- Learned to research solid information, assist people with questions and convey knowledge clearly and concisely.

PERSONAL PROJECTS

Accountant (accountant-mt.vercel.app) | *Next.js, React Context API, Vercel, Mantine UI*

- I developed an expense tracker using **React**, based on the **Bullet Proof React** methodology to maintain a consistent project pattern, along with **Clean Code**, **ESlint**, and **Prettier**.
- I used controlled forms to capture user input, providing feedback on the data being processed.
- I used **Next.js** for dynamic data importing, improving performance by **60%** according to **Lighthouse**.
- Deployed the application on a live production environment using **Vercel**, ensuring seamless accessibility.

React Portfolio Website (mateuscqueiros.vercel.app) | *Next.js, Tailwind CSS, Vercel*

- Developed a responsive website using **Next.js** to showcase some personal projects that I'm proud of.
- Created support for **Dark mode** using **CSS variables** and **TailwindCSS**.
- Hosted the site on **Vercel**, using **Analytics** to gather user traffic information.

EDUCATION

Unicesumar

Bachelors Degree on Software Engineering

Jan 2022 – Dez 2025

Associate Degree on Technology of Systems

Mar 2024 – Mar 2025

OTHER ABILITIES

- I participated in **Open Source projects**, using the **GitHub** workflow to contribute to the **Mantine UI** library.
- Teaching and working with people throughout my career helped me develop strong communication and team skills..
- Passionate about my craft, love doing general software development and enhancing my **Neovim** setup.
